

PERMANENT MAKE-UP AND TATTOO REMOVAL

Located in the heart of Kanata Lakes, **BindingBeauty Permanent Make-Up Clinic** was founded and is directed by Sandee Kimmons, a Certified Micro Pigmentation Specialist, practicing the artistic application of Permanent Make-up and Tattoo removal. Sandee trained at North America's leading facility, *The Micro -Pigmentation Center, Inc.*, located in Toronto.

Sandee's practice focuses on a variety of procedures including:

EYEBROW CORRECTION AND ENHANCEMENT - A well-proportioned and artistically blended brow makes a significant and lasting enhancement towards a youthful and attractive appearance.

EYELINER: Currently the most popular permanent make-up procedure requested, it can be applied to both your upper and lower lids.

EYELASH ENHANCEMENT: Placing the pigment between eyelashes results in darker and more striking lashes.

LIP CONTOURING: Your natural lip line becomes articulated in a delicate and natural way.

LIP SHADING: Lip Shading will allow you to look like you have fresh lip color all the time, 24 x7!

TATTOO REMOVAL: Elimink™ is a new and unique Tattoo Removal/lightener system which draws tattoo ink out of the body and to the surface of the skin.

All procedures are done with anesthetic, to ensure patients are relaxed and comfortable.

Sandee describes her philosophy as follows: "Because we live in a visual society, any opportunity to enhance our natural beauty seems a natural choice. I am dedicated to sharing my professional skills and artistic abilities, in order to enhance and honor your beauty."
